

Aid Data of Countries:Project 2 Viz - 1

Aid Data

Visualization 1: a) How does the amount donated vs. amount received change over time across all countries?; b) Are there countries that mostly send or mostly receive and countries that have a similar amount of donations they receive and send?; c) Are there countries that change their role over time? That is, they used to mostly send donations and turn into mostly receiving donations and vice-versa?; d) Are there countries in which you can find a sudden increase ("peak") or a sudden decrease ("valley")?
